Description:

A cardboard box is found on a shelf of a London library where a copy of Mahabharata should have been. When the mystified librarian opens it, she screams before she falls unconscious to the floor. An elite group calling itself the Lashkar-e-Talatashar has scattered around the globe, the fate of its members curiously resembling that of Christ and his Apostles. Their agenda is Armageddon. In the labyrinthine recesses of the Vatican, a beautiful assassin swears she will eliminate all who do not believe in her twisted credo. In Tibet, Buddhist monks search for a reincarnation while in strife-torn Kashmir, a tomb called Rozabal holds the key to an ancient riddle. Father Vincent Sinclair, has disturbing visions of himself and of people familiar to him, except that they seem located in other ages. He goes to India to piece together the violent images burnt onto his mind. Shadowing his every move is a clandestine society, which would rather wipe out creation than allow an ancient secret to be disclosed.

Finally I did finish it...and that's what mattered the most to me..this has been a novel which made me resolve never to buy a novel just because u liked another one from the author...Reading Chankya's Chant, and finishing Krishna Key before I could finish this one (which took me like what...7-8 months) I knew he is not a light author...he researches, and brings in a lot of history, science, mythology and all other stuff in his novel including picture clue, anagram and all...

Finally I did finish it...and that's what mattered the most to me..this has been a novel which made me resolve never to buy a novel just because u liked another one from the author...Reading Chankya's Chant, and finishing Krishna Key before I could finish this one (which took me like what...7-8 months) I knew he is not a light author...he researches, and brings in a lot of history, science, mythology and all other stuff in his novel including picture clue, anagram and all...

And then of course, he is compared to Dan Brown...all respect to the author, but Dan Brown never got so tough to finish..you don't just keep bringing 200 characters in a 300 page novel...I lost count of the time zones, religions and characters you were trying to decipher...and I still don't know how the title connects to the novel...shouldn't it still be "La Sara Kali"...

Or the heck of it, how come a novel finishes on the line this one does...I don't know if there were even 25 bakes in these 345 pages I really could connect to..

No, I am no literature freak...the book might be one artistic piece, but this one, definitely isn't a piece you can love, or really connect to...not at the normal reader lever..and rest, to each, comes his own choice :)

A pretty confusing book till now...specially when I find atleast a couple of new characters being introduced in every page...it's a struggle to actually realize which names and characters u r supposed to remember for future reference n which to take on easy...

Sighs, already finished a book before completing this...and started another...hopefully I would finish this one sooner or later...if Chanakya's chant was a lil tough to track, this is tha baap of it :)
